ABOUT DULF'S

Dulf's Burger reflects the entire value chain of a burger according to the highest quality standards and at the same time #derbelecker:
At Dulf's Burger, almost every dish is produced in-house and without the use of preservatives or flavour enhancers!!!

BEEF

- Dulf's Premium Beef Is The Most Important Player On The Pitch

Dulf is supplied fresh every day with premium Black Angus beef cuts directly from Ireland.

For the high quality of its homemade burger patties, Dulf only uses the topside and forequarter of Black Angus beef and forequarter of Black Angus cattle into the grinder.

The Black Angus farm is located in Ireland, where the cattle can graze from March to October due to the mild maritime climate. This particularly long grazing period has a positive effect on the quality of the beef due to the feeding of herbs and grasses. Although Black Angus cattle are now kept in Ireland, the breed originally comes from Scotland - hence the name „Angus“ derived from the Scottish county. Black Angus meat is characterised by its unique taste, its strong red colour and its fine fat marbling. In addition, the Irish beef is finely fibrous and remains very juicy and tender even after roasting. The meat is freshly minced daily on site at Dulf's Burger and formed into burger patties by hand without any added preservatives or the like. The open fire of our high-performance gas grill provides the smoky grill aroma, a light crust on the outside and the perfect cooking point on the inside.

Due to the high „steak“ quality of his Irish Premium Angus Beef, Dulf recommends ordering his Burger Patty Medium to order

BUNS

- What Would A Team Be Without Its Players?

For a burger to be #derbelecker, the burger bun must not go limp. Dulf's Burger Buns hold the burger's insane flavour explosion together in two halves of bread and are prepared fresh every day, from the best organic ingredients, and baked in three variations:

Dulf's Sesame: wheat-meets-potato bun, mildly tart from real wheat sourdough, long-aged for great flavour. Fluffy and fluffy and wonderfully moist. Topped with fine sesame seeds for that special kick of nutty flavour.

Dulf's Brioche: Soft and airy brioche bun made from wheat flour sourdough, refined with real vanilla. Buttery aroma, light sweetness and great taste due to long-term maturation. Golden shiny and tender crust.

Dulf's Lye: 100% vegan, hearty lye potato bun. Crunchy crust refined with salt meets fluffy, juicy crumb. Real wheat sourdough, which ensures intense flavour through long-term maturing and makes your bun more digestible.

Dulf's gluten-free bun: Classic burger bun, fluffy and similar in taste to Dulf's sesame - but without gluten. The starch is tapioca, potato and corn. The flour is rice and maize. Golden linseed has been used as the grain. Please note that although Dulf's gluten-free bun is prepared without gluten, it may contain traces of gluten due to production processes.

TOPPINGS

- A Team Is Only As Strong As Its Weakest Link

The toppings accompany the burger on its culinary journey to the ultimate taste experience. The great art of a perfect topping is to make the burger think it's all about the beef! Thus, every burger at Dulf's has the undivided attention of an individual topping

- designed and perfected according to the unique characteristics of the burger!
- deserves! Each burger topping is prepared on site at Dulf's Burger.

SAUCES

- If A Burger Does Not Have The Sauce, Then It Is Lost. But The Same Burger Can Be Lost In The Sauce (Gucci Mane)

For Dulf, there is no industrially produced sauce that is good enough to be allowed to sit on a burger with Dulf's seal of approval #derbelecker. Neither in terms of taste and certainly not in terms of quality, because no recipe is too complicated or elaborate for Dulf to prepare his sauces. Foods that bear the name of a sauce, such as Dulf's Blue Cheese Mayo or Dulf's Honey Mustard Sauce etc. are actually made with these foods. For Dulf's Chilli Cheese Sauce, for example, heaps of cheese are melted and refined with jalapeños.
